

	Name	Duration	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
1	Initial literature study	72 days																							
2	Write PhD proposal	36 days																							
3	Write journal white paper	15 days																							
4	Deploy Badumna locally	20 days																							
5	Deploy Badumna in the Cloud	40 days																							
6	Develop test framework	40 days																							
7	Test Badumna architecture	20 days																							
8	Develop grouping algorithm	60 days																							
9	Test grouping algorithm	20 days																							
10	Develop state persistency	52 days																							
11	Simulate persistency protocol	40 days																							
12	Integrate persistency with Badumna	20 days																							
13	Test state persistency	40 days																							
14	Write paper on persistency	25 days																							
15	Develop novel P2P MMOG architecture	20 days																							
16	Implement architecture	90 days																							
17	Test and compare architecture	40 days																							
18	Write up PhD	90 days
